

DETAIL X  
2:1

Neodymium magnet system, Steel base body  
Radial pole pitch  
Nominal holding force approx. 140 N/cm<sup>2</sup>  
Magnetic field height approx. 10mm  
Wearability 7mm  
Switching travel 180°

|                                                                                                                                                                              |            |            |      |            |                      |                                             |                  |                     |
